

AMAZING GRADES

A Learning Styles Product to Meet the Needs of JROTC Cadets and Instructors

A recent JROTC research publication “Learning Style Characteristics of JROTC Cadets and Instructors: Implications for Training and Instruction (available to you on line at <http://www.rotc.monroe.army.mil/jrotc/documentsNAIL%20Research.pdf>) shows that both cadets and instructors can significantly improve learning performance and test scores with learning style tools. These tools are accessible to you in a professionally produced package. This learning styles package, AMAZING GRADES, is now available for you and your cadets to use and dramatically increase achievement. This product is a useful extension of the Quantum Learning CD which features learning styles as one of the secrets to unlock cadet performance.

25 Years of Research...and Proven Results

Developed by Dr. Kenneth and Rita Dunn and Dr. Laurence Martel, “Personal Learning Power” is based on the discovery that each student or child has a unique and totally personal method of learning! The actual process of learning is as different for all individuals as their personalities or their fingerprints. This is called “learning style”. This breakthrough discovery has allowed a unique new system to be devised that lets JROTC instructors and cadets alike define and develop those critical learning techniques that can make the difference between frustration and heartbreak and truly remarkable success and renewed self-esteem! This product will address the recommendations of the national study conducted by Cadet Command and entitled “Learning-Style Characteristics of JROTC Cadets and Instructors: Implications for Training and Instruction”.

Tested and Proven in Over 220 Schools Worldwide

This outstanding program has already been validated by studies at over 75 universities in the United States alone. Because of the simple, one-step-at-a-time learning analysis and motivational techniques JROTC cadets will achieve the same truly incredible results in just hours after the program arrives.

Here’s How the Learning Power Program Works

This is truly an individual approach to learning. By following the self-teaching elements of the program, JROTC cadets will discover why over one million students have already learned how to perform better, learn faster, and more easily and actually begin to like school as never before!

The Discovery Book - this questionnaire will allow JROTC cadets to define the preferences in learning styles in 14 basic areas, so the cadet will discover exactly how and under which kind of environment he or she can best learn with maximum results!

The Discovery Audio-tape – because some students learn more easily by listening than reading, there is an audio-tape provided, which duplicates the book as well as reinforcing the message.

Personal Learning Power Profile – after answering a series of questions, the JROTC cadet will complete his or her individual “profile” which will clearly outline learning preferences and strengths.

The Activator – this element will guide the JROTC cadet in structuring the ideal studying environment and techniques based on what has been revealed by the Discovery Book Tape.

The Motivator – this is a study skills developer that is designed to address the differences.

The Time Saver – this special guide teaches the JROTC cadet how to employ time more efficiently for studying and learning, based, as always, on the cadet’s individual profile.

The Personal Learning Power Rap Video – this very special music video communicates and reinforces all the vital messages of **AMAZING GRADES** in a medium most readily appreciated by the cadets of today.
